

Capability Overview

Solutions Delivered Through
The Power Of Connection

Telecommunication Networks

azconnect

Building Lasting Infrastructure

Our people and strong culture form the backbone of every successful project

About aZconnect

- We help build strong communities through construction, transport and networking solutions.
- Specialising in civil construction, end-to-end fibre installation solutions and cable hauling solutions that bring people and industry together.
- Experienced across major transport, communication and infrastructure projects. Including partnerships with: AARNet (CSIRO Education), Downer (NBN), Fulton Hogan (ITS Networks), TPG/ Vodafone (Telecommunication Network), Ventia (Vision Stream, ITS Networks and Communications), John Holland (Rail), Seymour Whyte Constructions (ITS Networks)
- aZconnect has vast experience completing large-scale projects across industry sectors, including:
 - 20 years in telecommunication infrastructure
 - 6 years with the National Broadband Network
 - 5 years with Optus, TPG, AARNet, and Pipe Network projects
 - 2 years with Sydney Motorway, and Light and Heavy Rail projects

Our Mission – aZconnect is ready to build on the strong foundations we have set over the last 20 years. We aim to meet your needs, surpass your expectations, and provide valuable new connections to help you grow.

Quality, Health & Safety

aZconnect is dedicated to high-quality outcomes delivered safely and efficiently. We are ISO accredited and possess an integrated Management system that is compliant with:

- Quality Management to ISO 9001
- OHS Management System to ISO 45001
- Environmental Management Systems to ISO 14001

Quality Assurance

- We never cut corners and pride ourselves on projects free from defects.
- Collect information from the field as construction progresses in order to provide the client with accurate field artifacts and as-builts.
- The quality of our work is embodied in our loyal and strong workplace culture.

Workplace Health & Safety

- We have strong internal policies that align with our partners to promote safety and transparency for all stakeholders.
- Comply with all state and federal health and safety requirements.
- Systems and procedures are in place to identify hazards and control risks in line with state and federal legislation.
- Our company provides opportunities for staff training, toolbox talks, investigations, audits and consultation.

aZconnect Management System

The aZconnect Management System has been developed over the last 20 years, designed to meet and exceed government and TfNSW standards for quality and safety.

Focused on internal policies to promote safety and transparency for all stakeholders, producing accurate and timely deliverables, project reporting, forecasting, administration and accounting. Integrated across all facets of aZconnect’s business – costing, project management, project controls, scheduling and procurement, advancing through to commercial and financial administration.

Why Choose aZconnect?

- Proven industry reputation and track record
- Secure and guaranteed project outcomes
- Strong health & safety record
- Efficient project delivery and high-quality outcomes
- Industry-leading executives and personnel

Michael Kirch, CEO of aZconnect, is happy to assist you with any enquiry.
